

1

Are you interested in ecology?

Do you know that every year almost 30 thousand living species disappear from the Earth?

Can you even imagine that every day 2 million tons of garbage get into rivers, seas and oceans?

What do you know about the ways you can preserve the nature?

Join us to learn more about ecology!

2

Our course is divided into several modules which will introduce you to the ways you can help you country. We will learn how you can take care of animals, rescue a local area from clogging and save energy resources. Let's get down to the first module!

Begin with the first module

3 GARBAGE POLLUTION
